FrameNet Workshop

NAACL 2015

Website Overview

- Data
  - Viewing the data
  - Downloading the data
- Documentation
- Demos
- Context and Links
- Bibliography

FN Data

- Primary data
  - Frames
  - LU annotation
  - Document annotation
- Special data presentations
  - Frames: FrameGrapher
  - Frames: Frame Lattice
  - LU annotation: FrameSQL

Downloadable Data

- Requires registration

- Stable, updated rarely

- Includes all data types, except wordforms of lemmas

- Currently gives only the latest release

  – Soon will allow download of all versions, including current

Human Readable Data

- Updated nightly

- No registration required

- Actually same xml formats as downloadable data, plus xslt

- FrameSQL

  – Several different views on FN data

  – Only way to access ConstructiCon data!

Documentation

- About FrameNet, Intro ppt

- Glossary

- The Book

  - If you think you should rtfm, this is the m.

  - Being updated

    - New semantic types
    - Refinements for prepositional and adverb targets
    - New extra-thematic FEs

Community Interaction

- Forum defunct :(
- Bibliography
- Try annotating yourself
  - Lets the user select chunks and label FEs
  - Savable xml
  - Does not give feedback!

The Big Picture

- Project status
  - How many frames
  - How many LUs
  - How much anno
- Related projects
  - Automatic Semantic Role Labeling
  - FNs in other languages
  - Special projects
- FrameNet users

We hope the website does what you need--

Or, barring that, you'll give us suggestions!

Thanks!
